Members of Division 320 RE: Roberts Bank Roadswitcher Abolishments

Brothers and Sisters,

The company, on Wednesday, abolished the 3 Roadswitcher assignments at Roberts Bank. The Union was not notified of this action until after the decision was made, and our members were already being notified.

We have been told that this is due to Dumper 31 going down for maintenance, and that service for Westshore will be provided by calling ad hoc/extra Roadswitchers.

We have also been told that TTR will not be spotting CP Coal trains.

We are hearing unconfirmed reports that TTR will be taking over the servicing of Westshore.

If anyone has any information, or if anyone witnesses TTR taking over the service that we provide to Westshore, please forward this information to the Union as soon as possible.

Thank you,

Your Local Chairs
